

Promotion review FY2025 - commercial finance.

Promotions represented 38% of sales in FY2025, up from 29% in FY2024.

Promoted volume grew 14% while full-price volume fell 6%; total volume grew 2.1%.

Average promotional depth rose from 18% to 24% of the regular price.

Gross margin fell from 27.4% to 25.1% over the same period.

Sales of promoted items fall 22% in the two weeks after a promotion ends.

Loyalty-card data show that 71% of promoted volume is bought by customers who also buy the same item at full price.
